

ARITHMETICKLES is a unique interactive show in which theatre plus math equals lots of fun!

In **ARITHMETICKLES**, students come up on stage to participate in grade-appropriate stories, theatre games, magic and skits.

ARITHMETICKLES vividly demonstrates that math can be very cool while emphasizing the underlying message that math is a part of our everyday lives every day!

ARITHMETICKLES MATH NIGHT

is a great way to get parents involved in school life! The shows are geared to be highly enjoyable for parents as well as children who often

perform together as teams onstage and participate in hilarious (but non-threatening) math theatre games and stories.

In **ARITHMETICKLES MATH NIGHT**, parents and kids learn fun math activities that they can do at home together.

"Our kids had so much fun it barely registered that they were learning and practicing math!"

Pam Pezzullo, Errickson School, Freehold, NJ

"This program kept students focused for the entire hour. Arithmetickles was content driven, had a high level of creative thinking skills and was age appropriate."

Ms. Freeman, Teacher, Silver Creek Elem., Berea, KY

"The activities used gave true "life" meaning to everyday math facts. It was great to see parent and child teams on stage having fun and learning at the same time!"

Bob Crider, Principal, Greencastle-Antrim Elem. Greencastle, PA
